

THE WORLD'S NUMBER ONE GROWN SPRING BARLEY.

Grow to expect the best

RGT PLANET

SPRING BARLEY

TYPE:
CONVENTIONAL 2 ROW

SPECIES:
SPRING BARLEY

END MARKET:
MALTING

CHARACTERISTICS:

- > Number 1 brewing variety globally.
- > Domestic and export potential stiff straw.
- > Consistent performer across all soil types and all climates.
- > Most widely grown cereal variety in the world.

RGT Planet is the most widely accepted brewing variety in the world and more markets are continually opening up. It is grown in many countries, reflecting its consistency and durability. RGT Planet is agronomically strong and produces excellent quality grain, traits that helped it become a leading spring barley in the UK. Global but local – the variety travels well but will also perform on your farm.
